VENUE

**NATIONAL INSTITUTE OF TECHNOLOGY KARNATAKA
(NITK), SURATHKAL, MANGALORE -575 025, INDIA.**

NITK, SURATHKAL

National Institute of Technology Karnataka (NITK), Surathkal is an Institute of National importance that was established as Karnataka Regional Engineering College (KREC) in the year 1960. Nine undergraduate programmes in different disciplines leading to B.Tech. and M.Tech., M.Tech.(Research) and doctoral degree programmes in a wide range of specializations are being offered by the departments, school and centres.

NITK is located at Surathkal, about 20 kms north of Mangaluru city on NH66, on way to Udupi and Goa. NITK is well connected by air, rail and road. Mangalore International Airport, Mangalore Junction railway station, Mangalore Central Railway and Mangalore central bus stand are within 20 kms from the Institute. The world-famous temple town Udupi is about 30 kms away. The sprawling 300 acres of the campus is divided to the east and west side by NH66 with lots of greenery and interesting interiors and exteriors lined by the great Arabian sea on the west.

DEPARTMENT OF CIVIL ENGINEERING

The department was established in the year 1960 with a UG programme in Civil Engineering. Now in addition to B.Tech. (Civil) the Department also offers master's degree programme in Construction Technology and Management, Environmental Engineering, Geotechnical Engineering, Structural Engineering and Transportation Engineering and Ph.D. programme. The Department is engaged in various Research & Development Projects funded by MHRD, MoEF, DST, BARC, BRNS. Testing, consultancy services, industry interaction, continuing education programmes, R&D activities at the department have benefited and promoted inclusive all-round development of the industry and stake holders in the region.

CONFERENCE OBJECTIVE

The conference provides a platform for deliberations on developing solutions that mitigate the impact of infrastructure on ecology and environment. Research and case studies on challenges, underlying opportunities and innovative ideas for the development of sustainable infrastructure will be presented and discussed.

CONFERENCE THEMES

The Conference is focused on the following themes in general, but not limited to:

1. Low carbon building technologies and affordable housing
2. Novel structural analysis and design methodologies
3. Innovations in composite structures
4. Seismic resilient infrastructure
5. Utilization of industrial wastes for construction
6. Design & construction approaches for green highways
7. Road user safety & traffic mitigation for sustainable highways
8. Urban transport systems and traffic management
9. Financing infrastructure projects
10. Challenges for Soil improvement & Ground stabilization
11. Sustainable Cities
12. Disaster Risk Reduction
13. Innovations in Foundation Design
14. Dam Engineering
15. Computational, Analytical and Numerical Modelling
16. Conservation of heritage structures
17. Retrofitting & Rehabilitation of structures
18. Earthquakes & Landslides
19. Transportation Geotechnics
20. Sustainable Urban Planning

WHO SHOULD ATTEND

Students, Faculty members, Professionals from industry, Administrators and Policy makers.
